

# Satisfeed Program Dashboard

Caleb Cedeno - Elizabeth Doss - Damaris Montecinos / Dr. Anca Doloc-Mihu / ITEC - 4230 Data Science & Analytics Capstone Project

## WHAT IS SATISFEED?

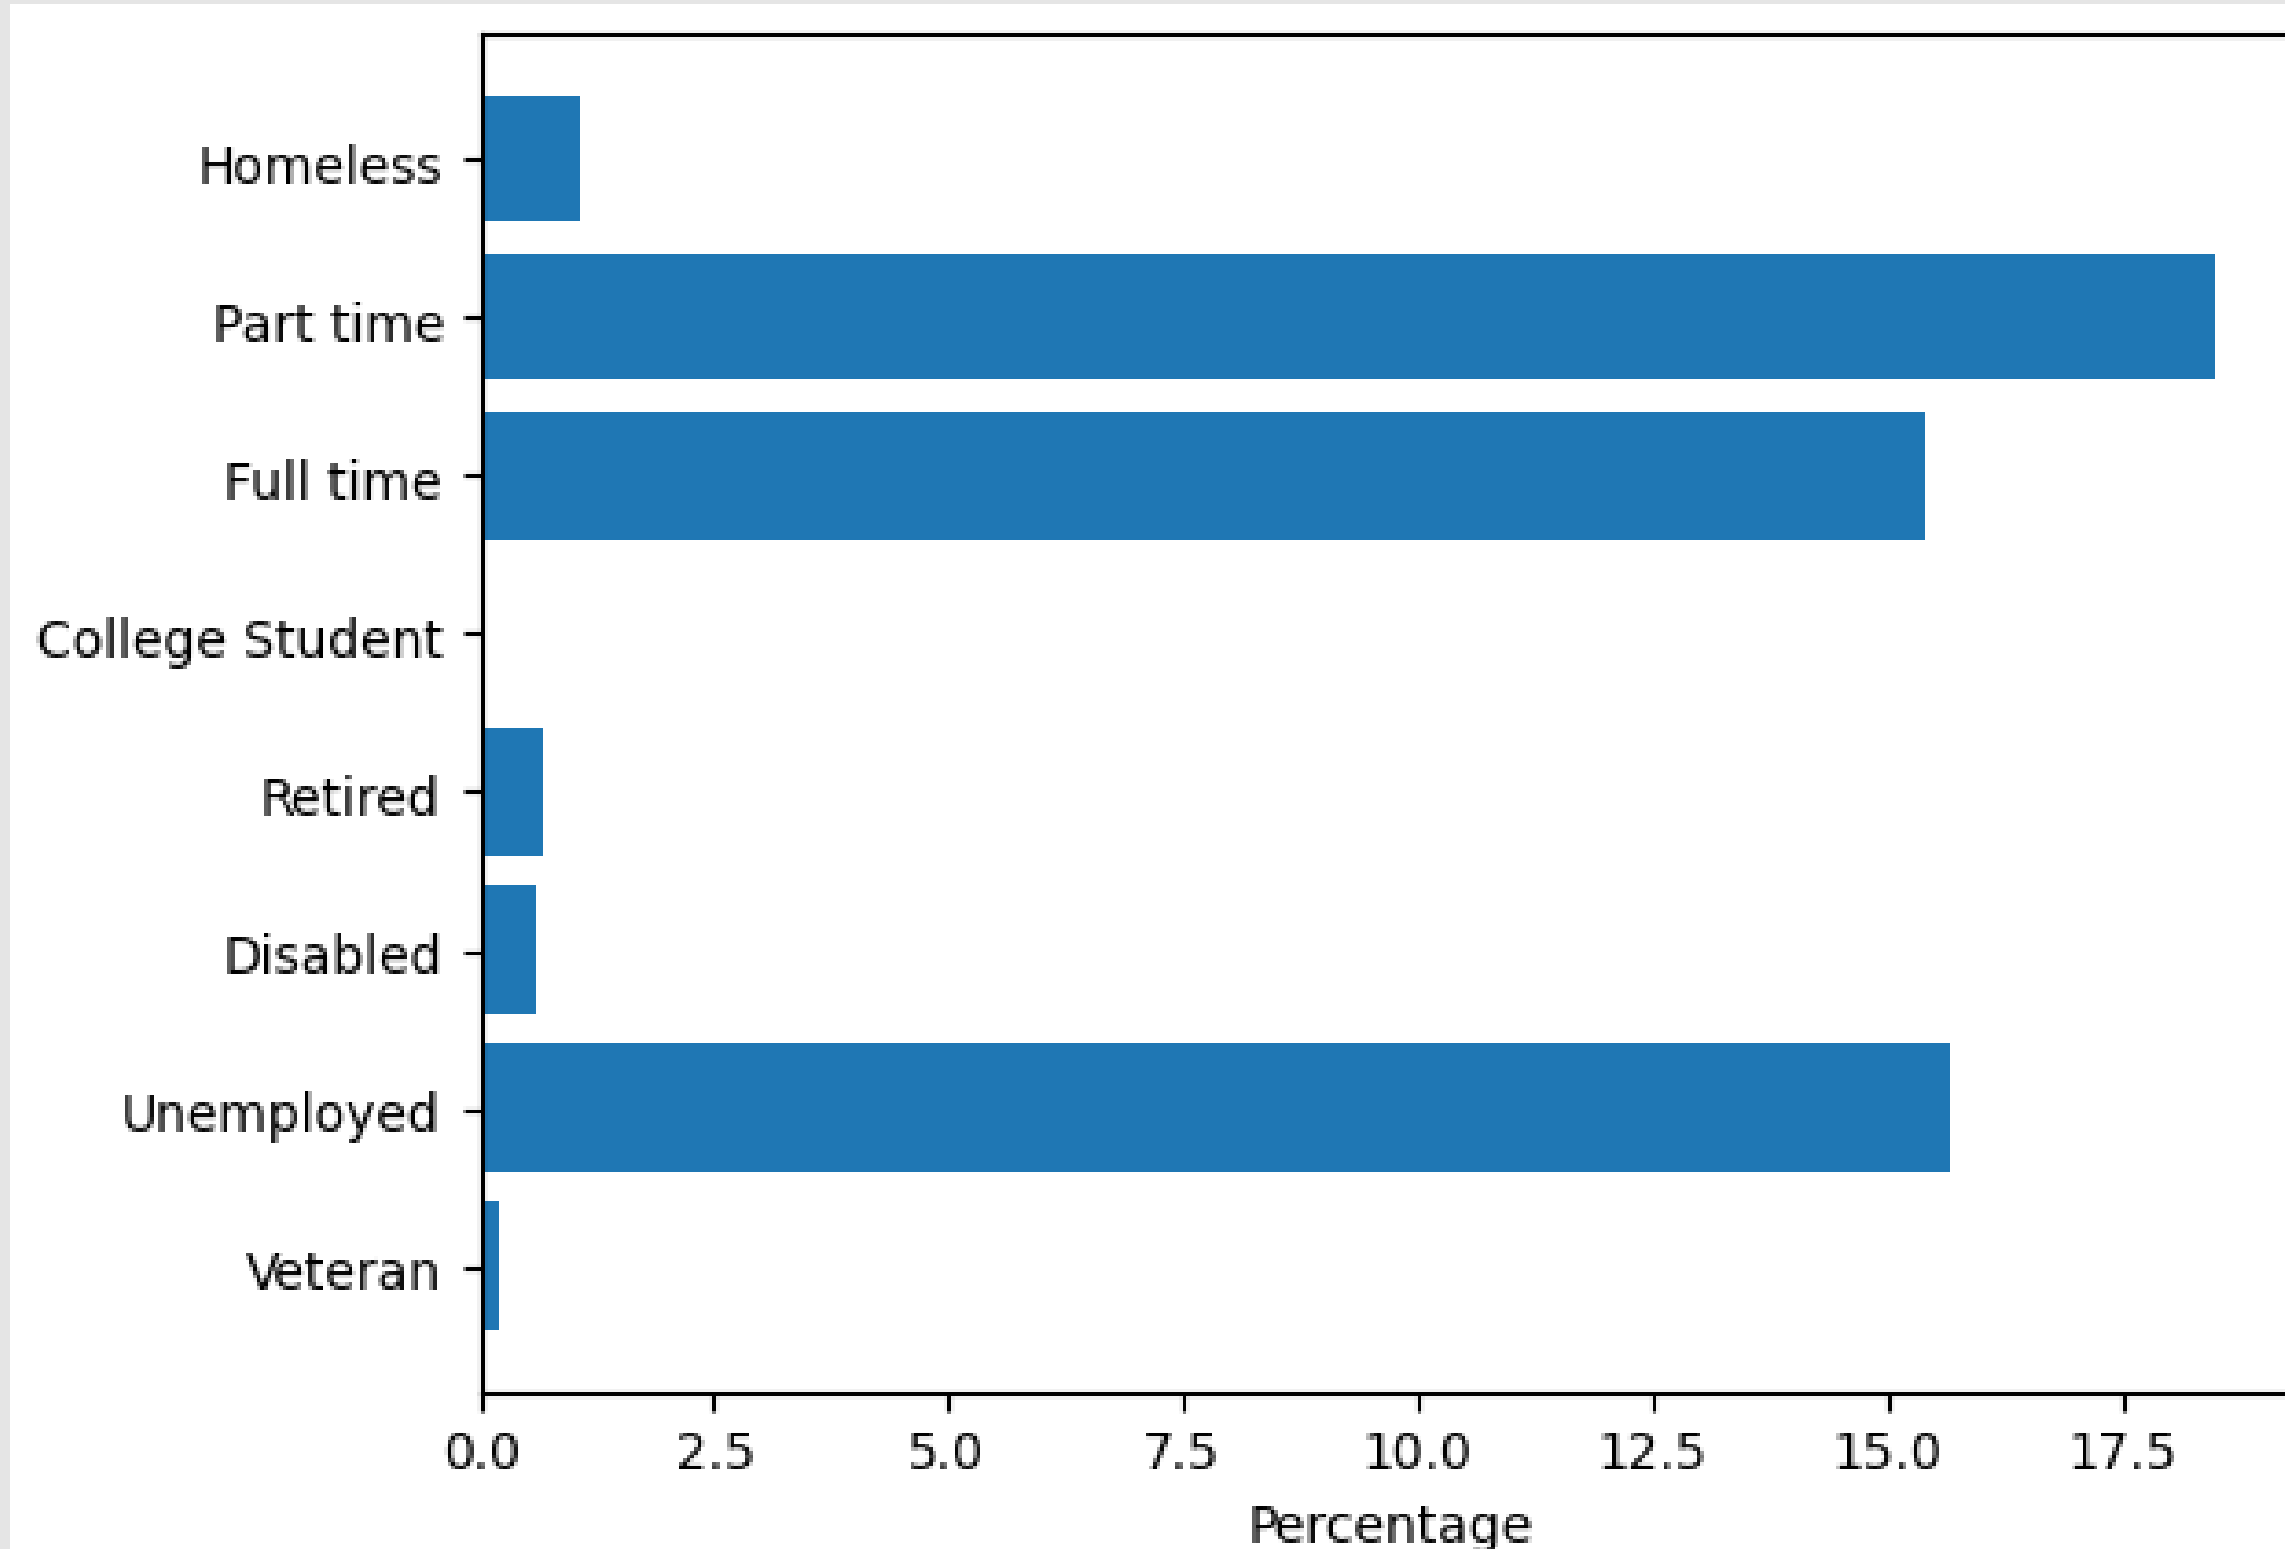

- Hunger relief program working in Gwinnett County
- Distribute food every Saturday
- Requested a dashboard for visualizing client demographics and statistics to improve their services
- Dataset came from Satisfeed and contained sensitive and private information

## TECHNOLOGIES

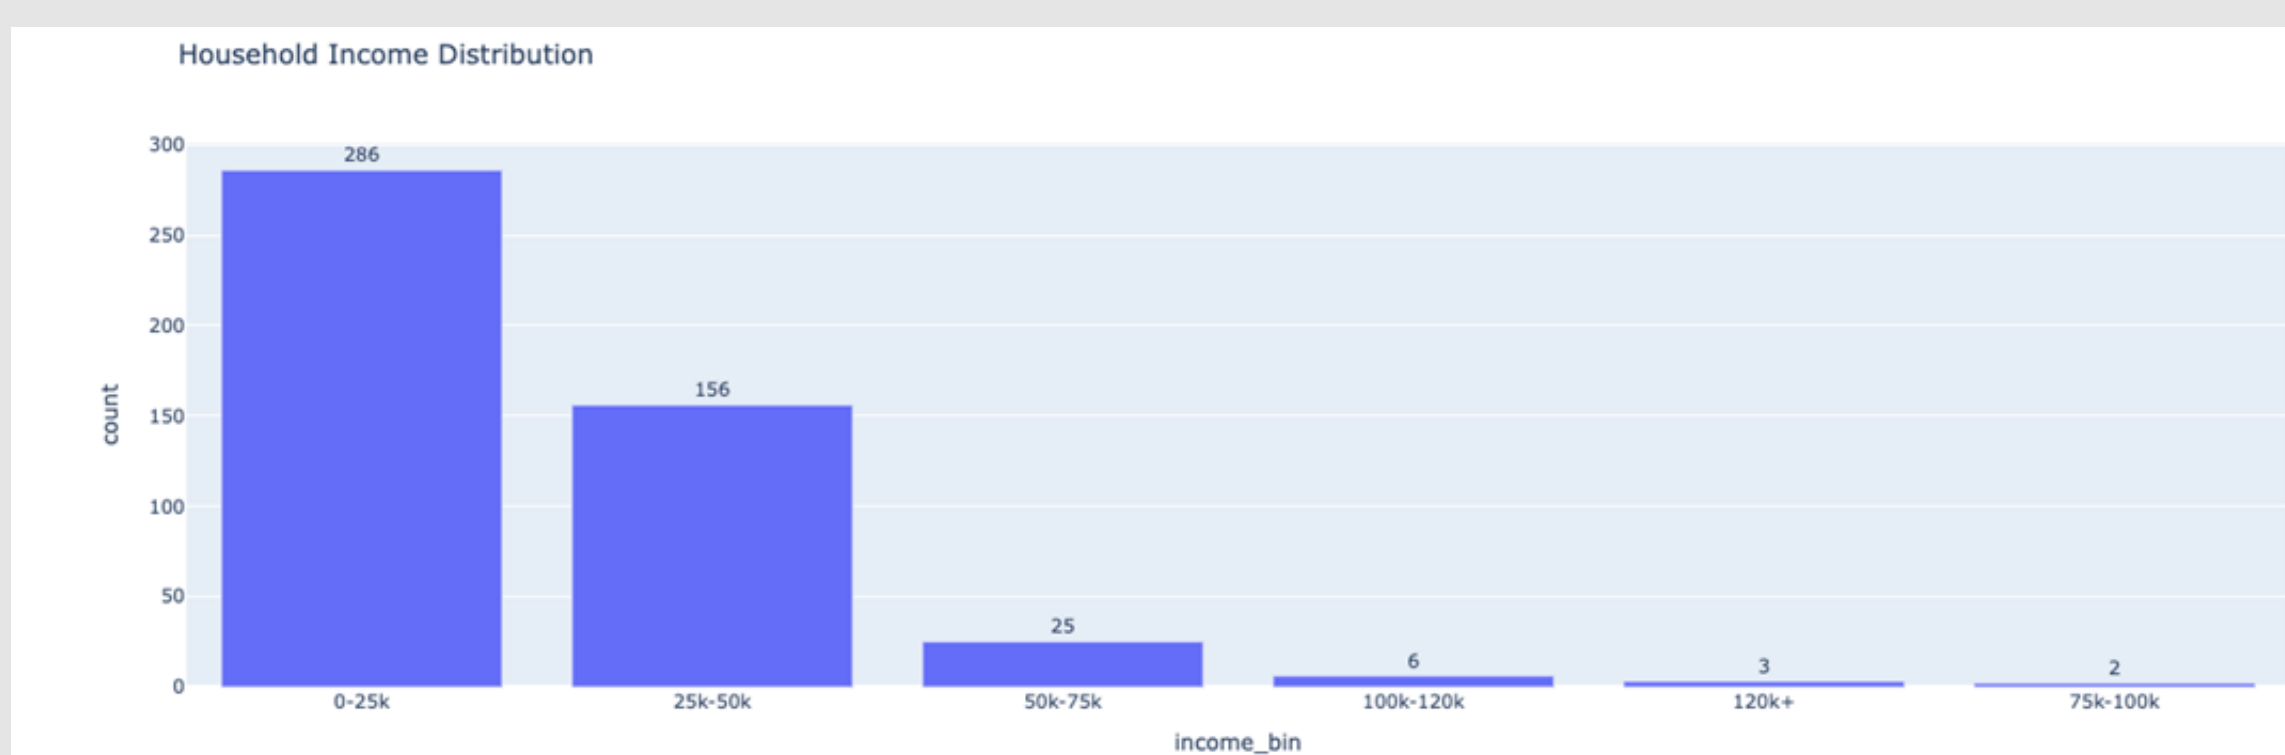

- Google Colab / Jira / Power BI / Github

## RESULTS

Many Satisfeed clients experience financial hardship.

The average client household income is under \$25k.

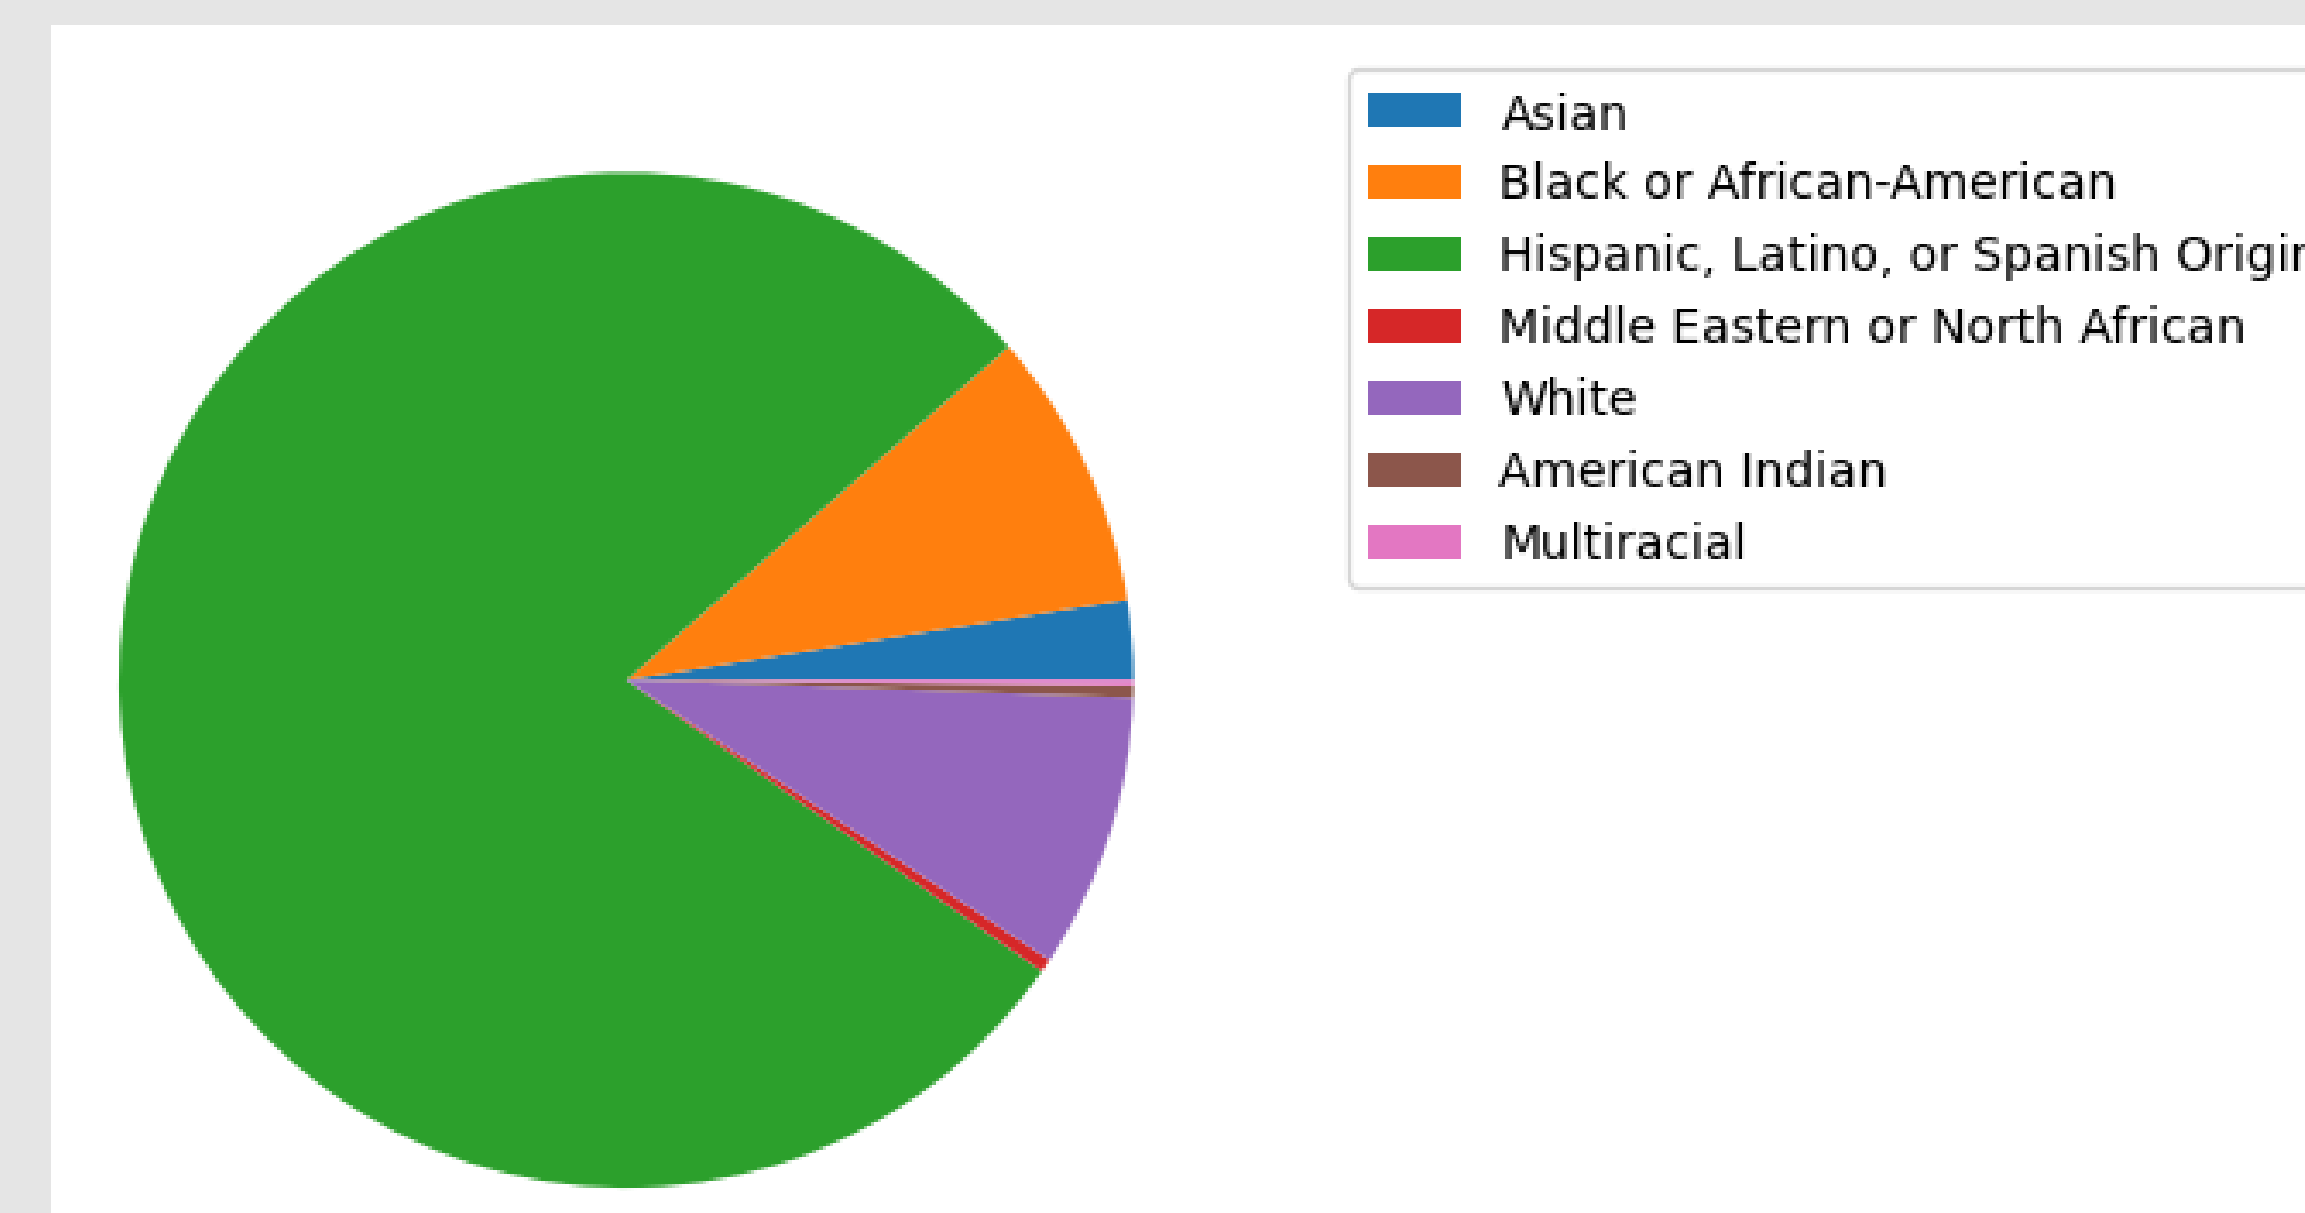

## DATA PROCESSING

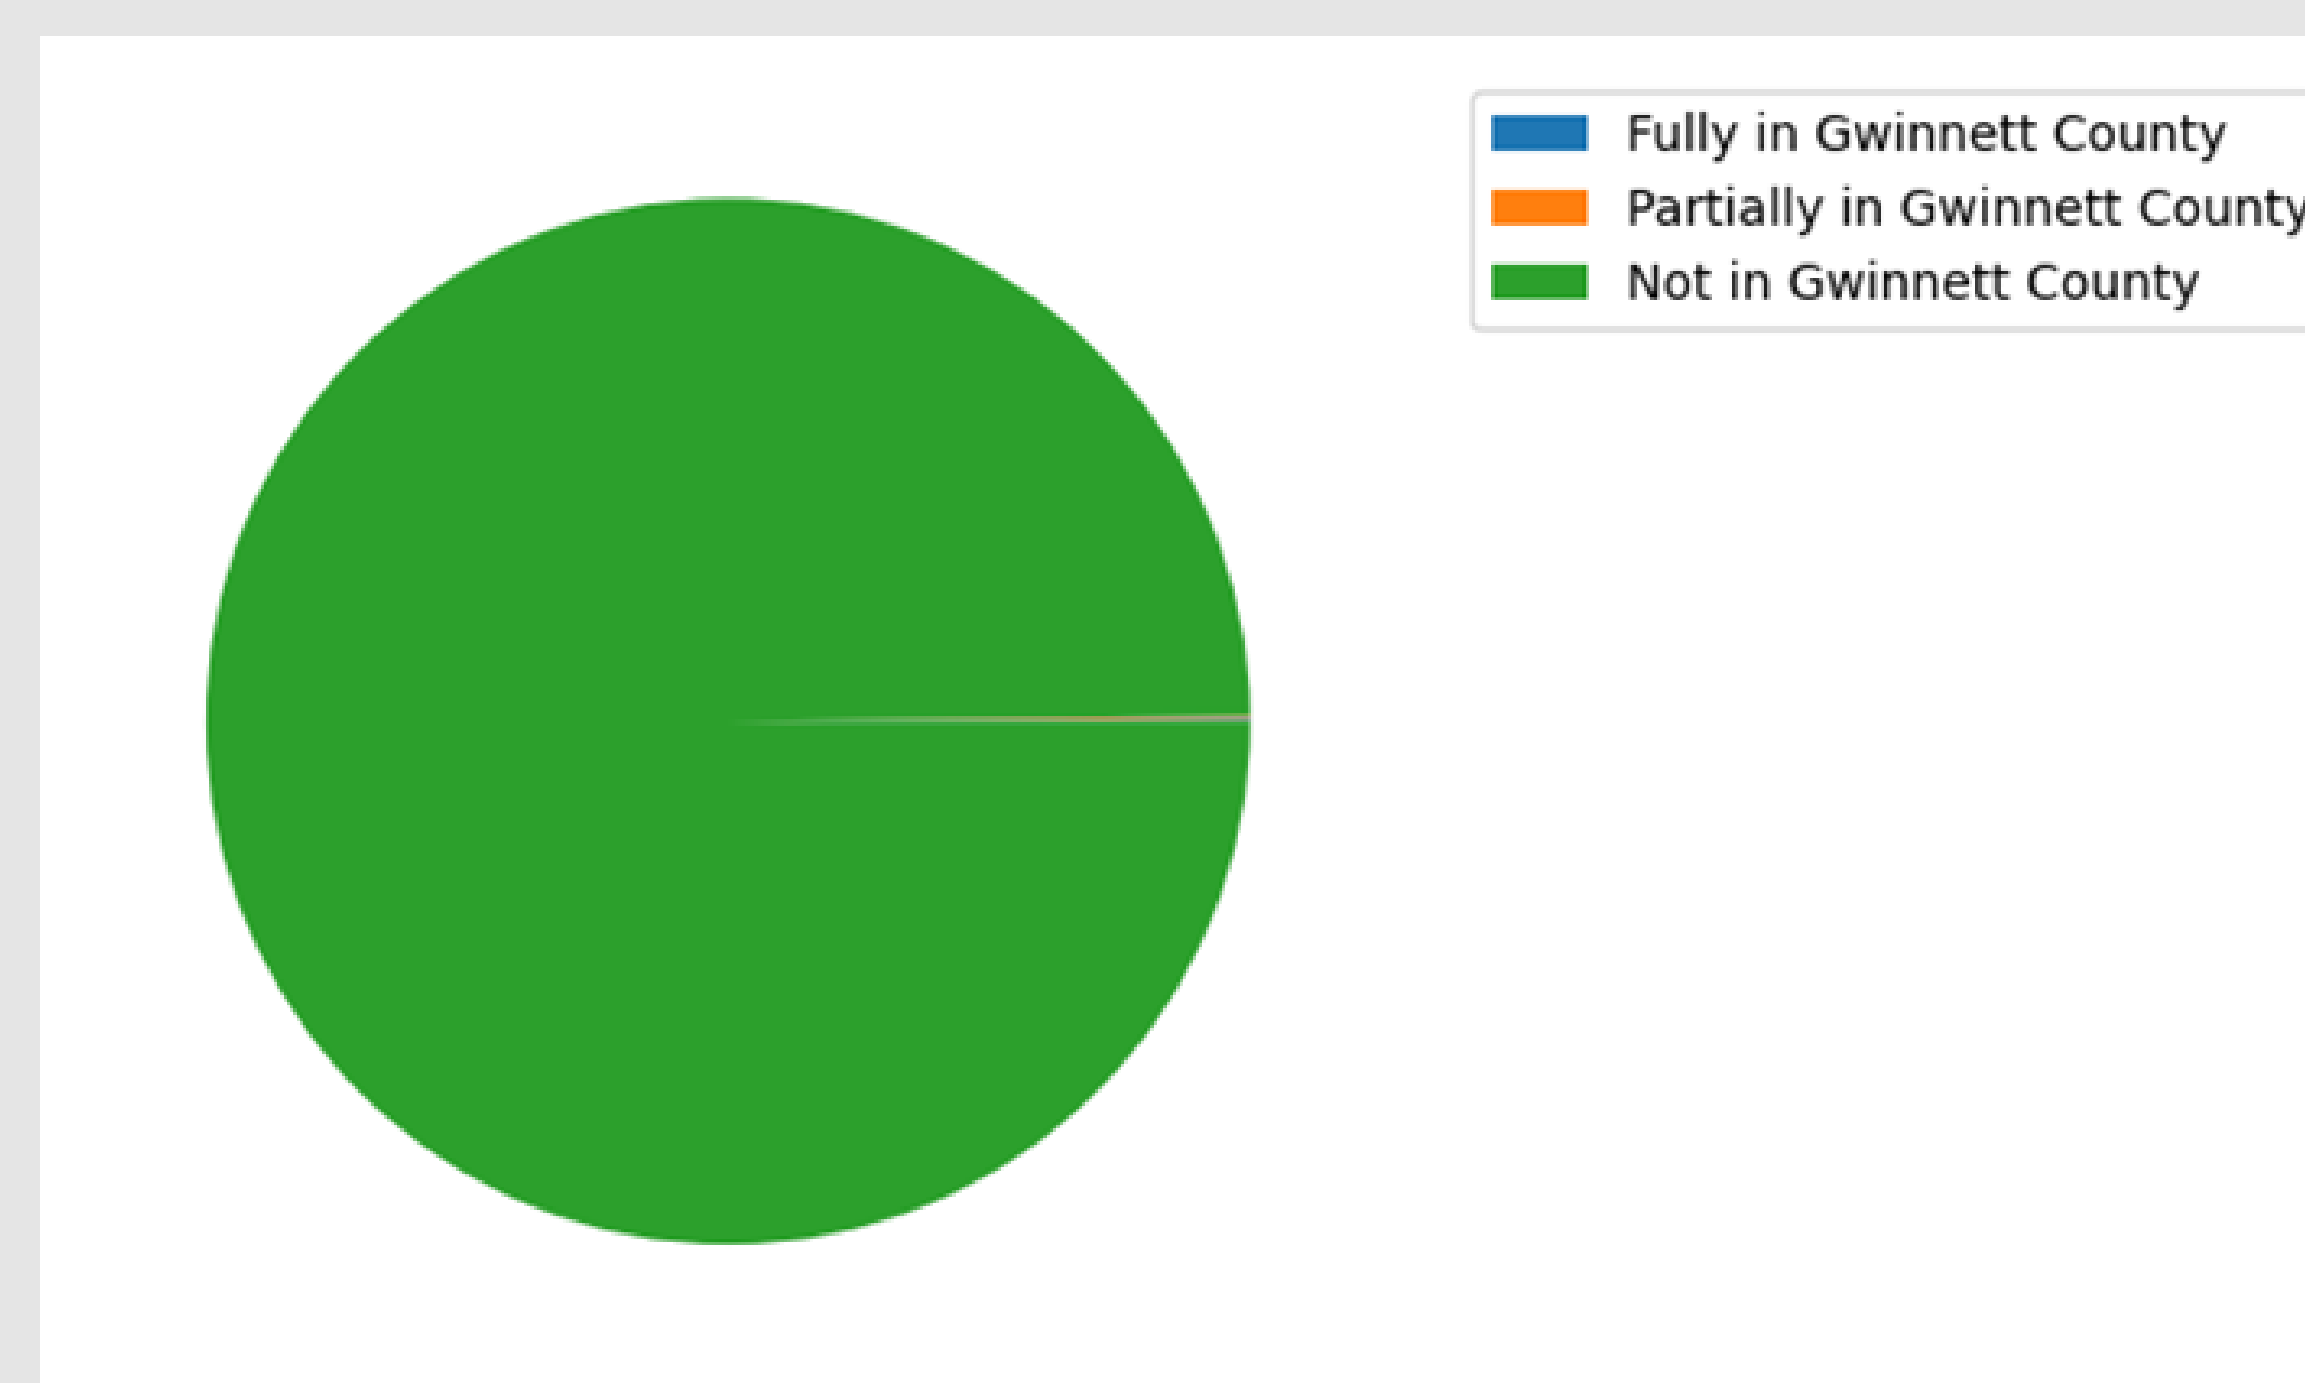

- Missing values filled in
- Yes/No replaced with True/False
- Insufficient or irrelevant columns dropped

## RESULTS

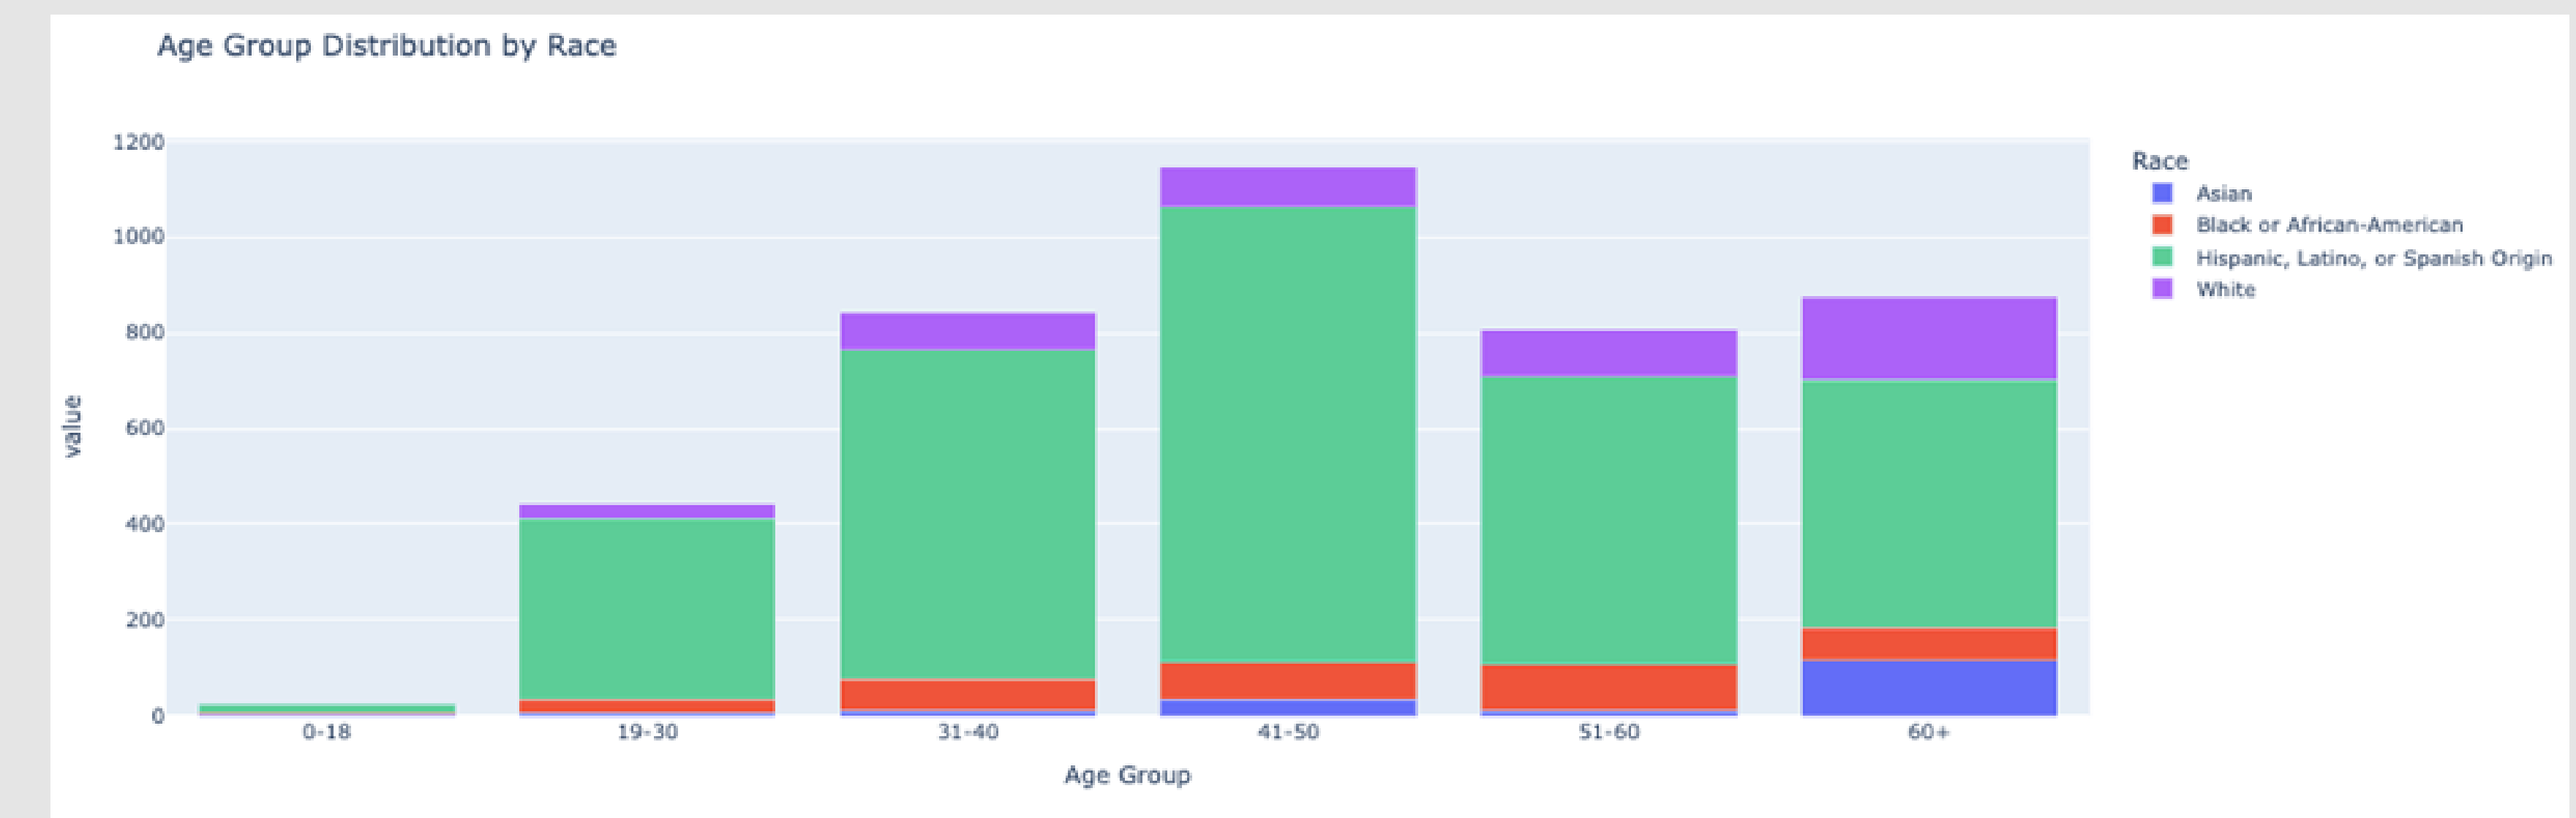

The majority of Satisfeed clients are Hispanic or Latino.

Most Satisfeed clients appear to reside outside of Gwinnett County.

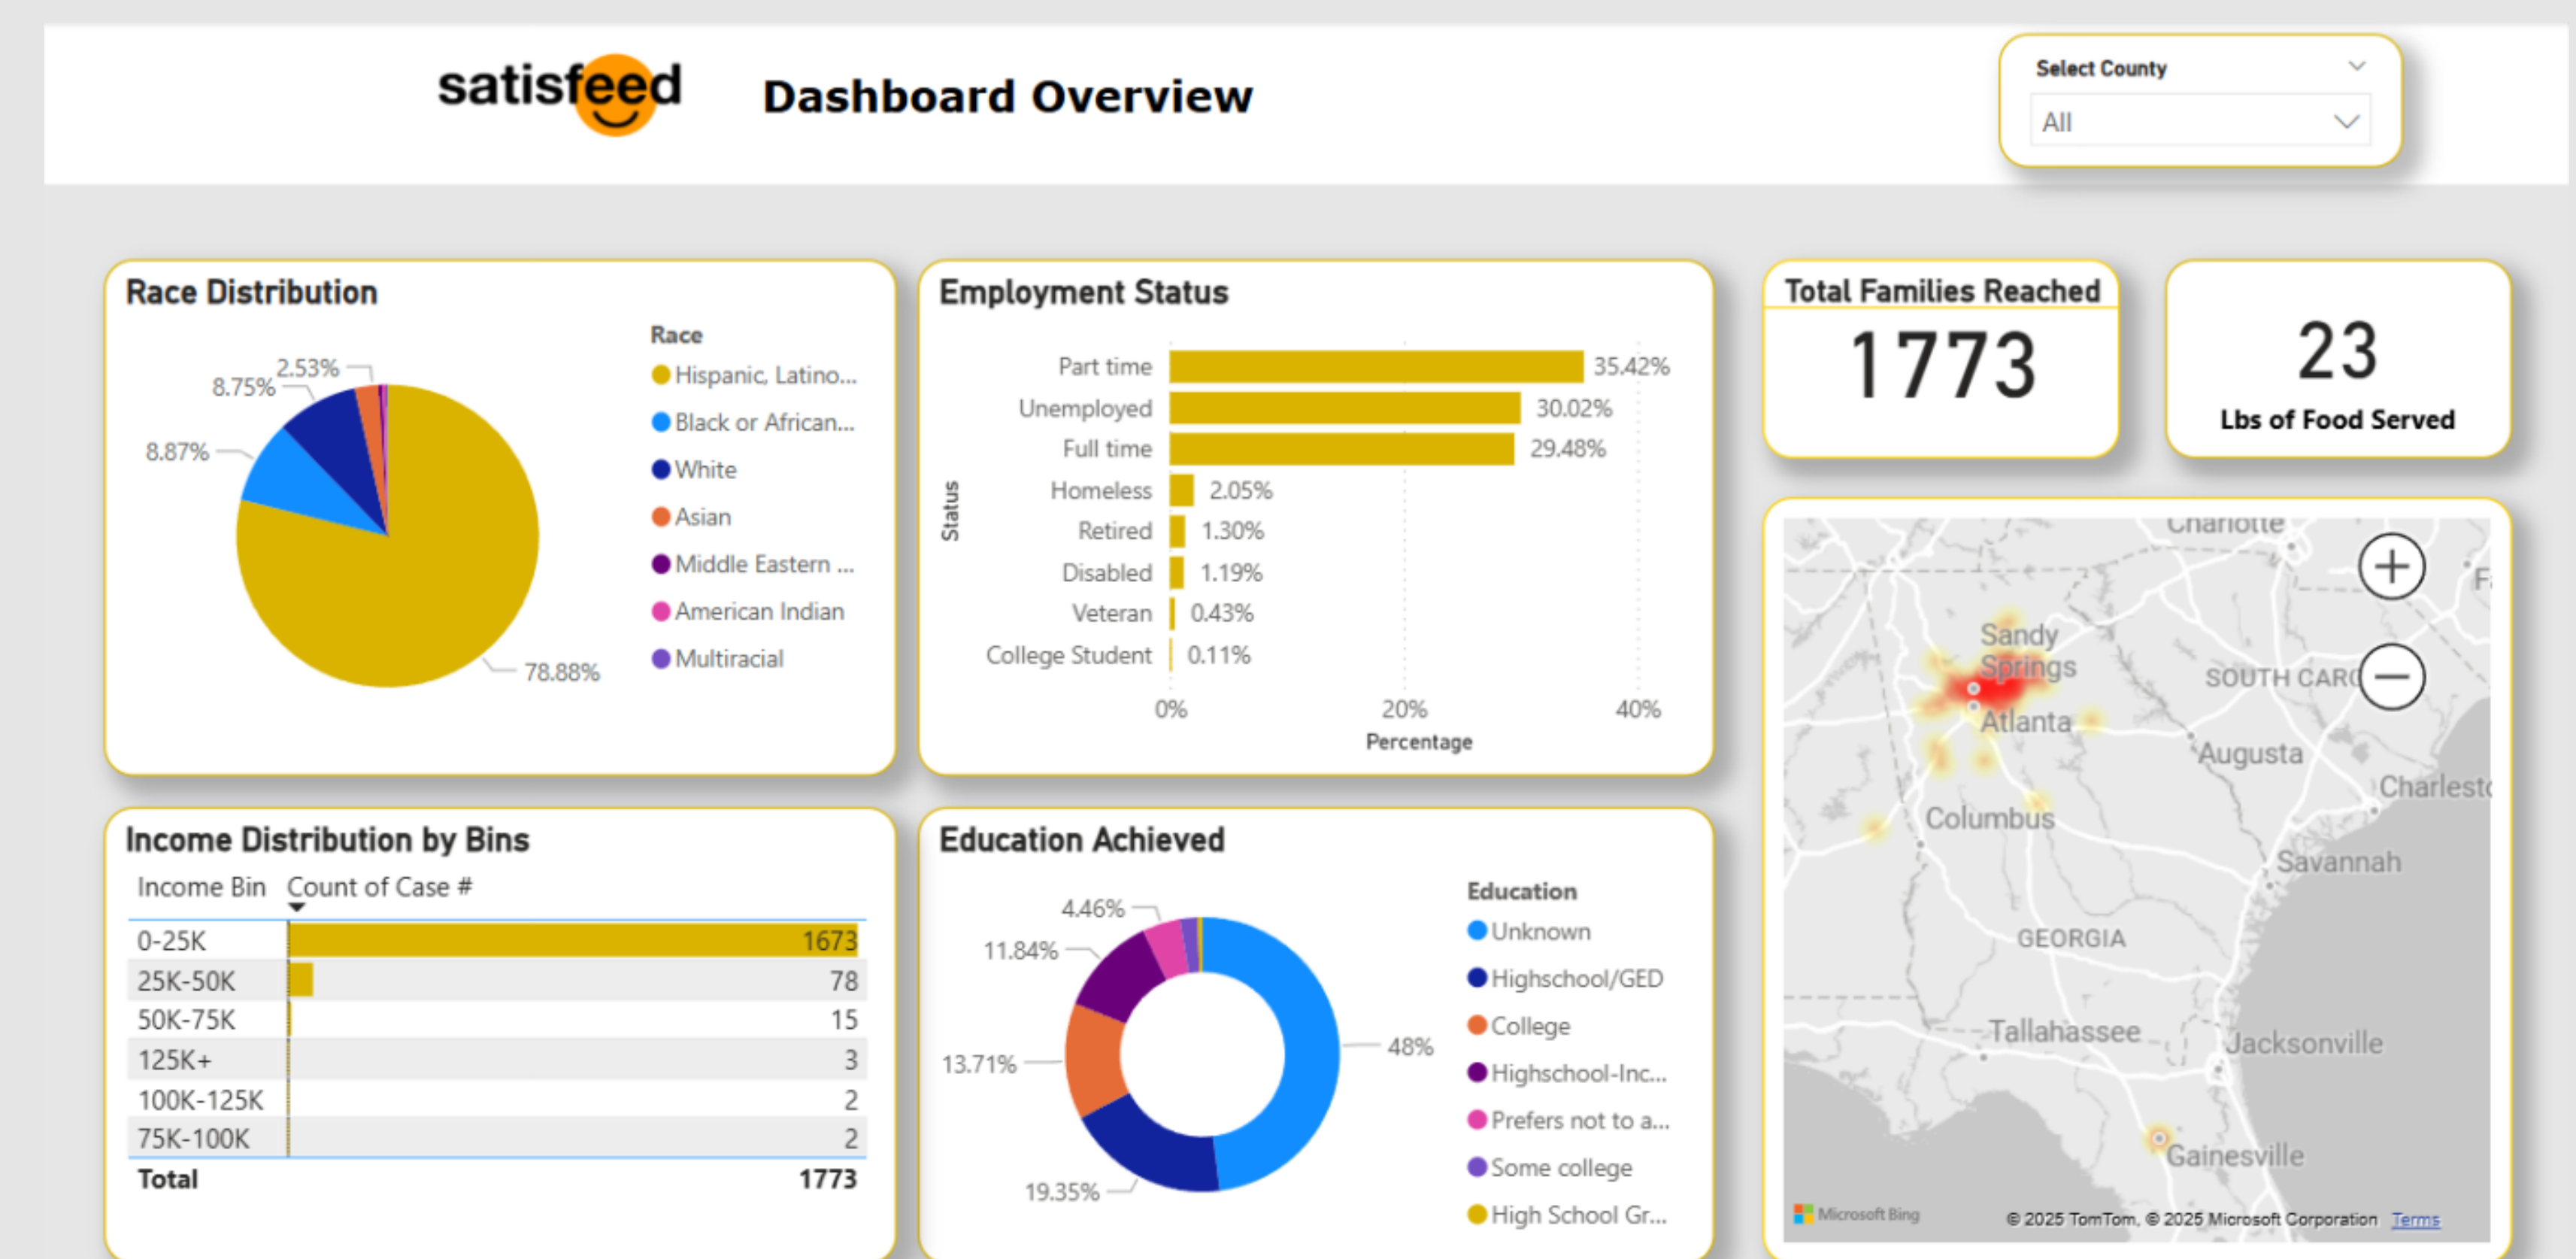

Most clients were between 40 and 50 years old.

## SATISFEED DASHBOARD

Interactive dashboard with key performance metrics and relevant statistics for the Satisfeed program.

## FUTURE WORK

- Creation of final dashboard
- Refinement of ZIP code data
- Integration of weekly food weight data
